

## MORINGA

We are going to The Gambia, West-Africa to continue our longterm project “The Moringa Orchard”. One of the things we will do is plant more trees and invest in our earth and Moringa: The Wonder Tree. All parts of this tree can be used to benefit your health. For example: you can drink the leaves as a tea and press the oil from the seeds to improve your inner and outer beauty.

The Moringa Tree is known as the “Wonder Tree”. Why? Check out the chart below. Do you want to follow our project? Check [@thejuicebar.1](https://www.instagram.com/thejuicebar.1) on Instagram!
